INTERESTING DESTINATIONS

Celje is one of the most historically rich towns in Slovenia. Explore the beautiful country destinations and tourist attractions by foot or maybe even with a bike or car.

OLD CASTLE CELJE

The Old Castle of Celje. A magnificent castle with walls which for centuries reigns on a hill above the city, will for sure leave you speechless from far away. Once you visit it, it will stay in your memories forever.

CELJE REGIONAL MUSEUM

The Celje Regional Museum, the second oldest museum in Slovenia, is situated in the old centre of the town. Its collections (from prehistoric times until World War I) are exhibited in the Old Counts' Mansion and the Princely Palace.

ŠMARTINSKO LAKE

Šmartinsko lake is located in the direct vicinity of Celje. Because of its winding coastline and interesting surroundings, it is an appealing tourist destination.

OLD COUNTY CELJE

During the renovation works, quality elements from the building's history were gradually revealed, such as wall paintings and genuine profiled wooden ceilings. With the new museum contents and the presentation of cultural-historical and ethnological objects from Celje and its surroundings, the Late Renaissance building was given a new life.

CELEIA - A TOWN BENEATH THE TOWN

The Celeia archaeological exhibition – a town beneath today's town in the cellars of the Princely Palace is so far the largest presentation of the remains of Roman Celeia »in situ«. Its silent yet picturesque testimony invites you to walk among its ancient walls, which are the evidence of the town's rich history.

CELJE HUT

A fan favorite destination for the town folk. A weekend hike to the top and a good mushroom soup is a must for every traveller that comes to Celje. The destination is popular in all seasons of the year. During the winter time it is a great sport to go skiing.
